Patriots Landing

Joe Montgomery, Founder and Board Chair of Patriots Landing, states they are a faith based veterans complex whose mission is to enhance the lives of veterans and their families. "The Training and Discipleship Center is a special place within Patriots Landing where learning and healing will take place for our veterans and their families. Woodworking techniques will be taught along with a myriad of leadership, commitment, community and fellowship classes. Our Veterans will have the opportunity to grow in faith and learn valuable job skills in our center. Our goal is to help those veterans and their families who have been under-served to have the opportunity to get their lives back in order on all fronts.

Our new home, located in Williamstown, KY, is a combination of showroom and meeting area and will house a wide selection of veteran crafted products. Items can be purchased from our web site: patriotslanding.org.

Our Patriot Crosses are hand-crafted with love and respect by our Veteran craftsmen. Each one is perfectly imperfect just like the Veterans we help heal every day." Note: The veteran signs their name and branch of service.

Maumee Chamber of Commerce

In August 2023 WVI became members of the Maumee Chamber of Commerce for the purpose of networking and to spread the word about women veterans. In the short time that we have been members there have been many opportunities to meet new people who are interested in learning more about women veterans plus working with WVI on events and veteran activities. The Chamber is also promoting WVI events by posting our fliers in their weekly newsletter. Look for new events in 2024.
